## Strawberry Cheesecake Salad

Author: Alyssa

This salad can be made with or without marshmallows. I have made it with both and it is still delicious without. It would also be great with other fruit mixed in. Rating: 5 stars

### Ingredients

- 12 oz whipped topping
- 1 small package of cheesecake pudding powder
- 3 (6 oz) strawberry yogurt
- 1 lb fresh strawberries
- 3 bananas sliced (add right before serving)
- miniature marshmallows (optional)

### Instructions

1. Thaw whipped topping. I always put it in the fridge the night before. In a large salad bowl mix yogurt, pudding, and whipped topping together. Put in fridge and allow it to set up for about an hour.
2. Wash and slice strawberries. Add strawberries, marshmallows, and bananas right before serving. Keep refrigerated.
